Student Services Center S133, 310-434-4343

The Student Employment Program — offered through the Career Services Center and processed through the Financial Aid Office — assists SMC students seeking part-time jobs at Santa Monica College, and offers students information on the skills and characteristics of a successful employee. On-campus jobs are available in many departments and programs on SMC's Main and satellite campuses.

Students may be employed at SMC under two special budget programs: Student Help (SH) and Federal Work-Study (FWS). SH pays students to work on campus through department and program budgets. FWS is a Financial Aid award that pays a student wages for employment. The award is funded through the Federal Work-Study Program, a Federal financial aid program that requires that the student apply for Federal financial aid, meet specific eligibility requirements, and be awarded FWS funds by the Financial Aid Office.

To be employed as a student worker at Santa Monica College, a student must have a valid Social Security (SS) Card with the correct spelling of the student's name. F-1 students will be given a form letter to request an SS card from the Social Security Office.

For more information, students should visit the Student Employment website or call the Career Services Center. For additional student employment options, students should consult the Career Services Center.

Santa Monica College is committed to promoting global citizenship. To support that goal, SMC's International Education Center offers several Study Abroad opportunities led by SMC faculty members. Tailored to make the most of a destination's resources, the Study Abroad programs take students to another country and immerse them in an exciting and engaging learning program. Each program gives students the opportunity to earn SMC credit as they expand their own intercultural awareness and foster a more global experience. Students who successfully complete a minimum of three semester units while attending a Study Abroad program will fulfill SMC's Global Citizenship graduation requirement for the Associate degree. Students should see the International Education Center or call the office for details.

Supplemental Instruction (SI) Program

smc.edu/si

Drescher Hall 302, 310-434-4121

The Supplemental Instruction (SI) Program provides academic assistance through free out-of-class sessions for SMC students enrolled in specific courses. During SI sessions, SI leaders present interactive group activities that engage students to help them learn course concepts, prepare for exams, and develop effective study skills. The sessions are voluntary, and help students develop a better understanding of course content, as well as more effective ways of studying.

SI also offers peer-facilitated study sessions led by students who have successfully taken the course, and are prepared to share what they have learned about how to study the material. Students engage in interactive study groups, discuss course content, learn and integrate study skills, participate in learning activities, and take mock exams.

Please Note: SI sessions are NOT tutoring sessions like the ones offered at various on-campus tutoring labs, and SI leaders do NOT tutor or assist students with homework problems.

Students should see the SI website for details.
